## A. General Information

### 1. Handset

The **HKUST iPRS** system supports both the ordinary handset and the smart-phone/tablet.

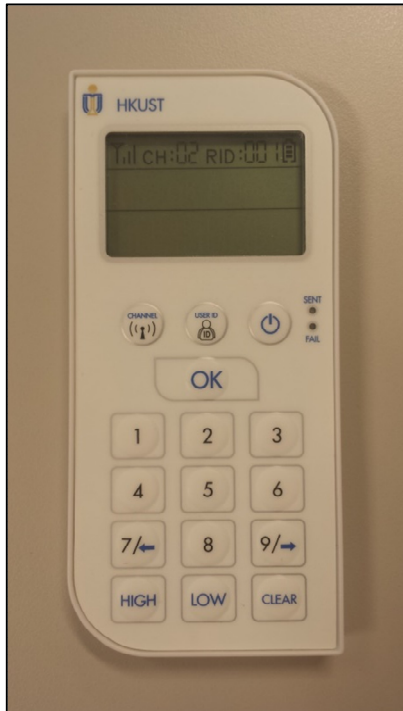

Fig. 1 – Ordinary Handset

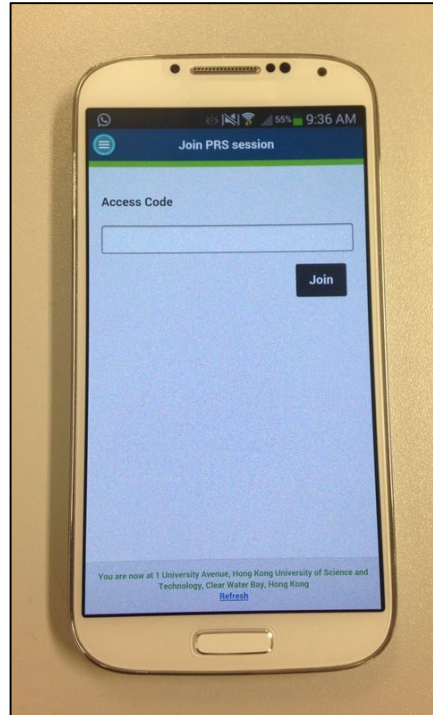

Fig. 2 – Smart Phone

### 2. Mobile App

Students should use **the HKUST iLearn** mobile app in their smart device when attending a PRS session in class.

The mobile app is available for both Android and iOS devices.

For Android devices, search **HKUST iLearn** at Play Store:

For iOS devices, search **HKUST iLearn** at App Store:

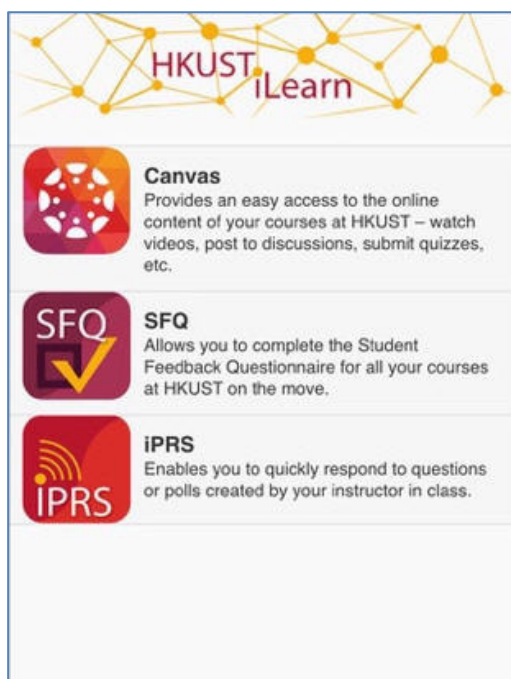

## B. Login HKUST iPRS

When using the mobile app, you are required to login.

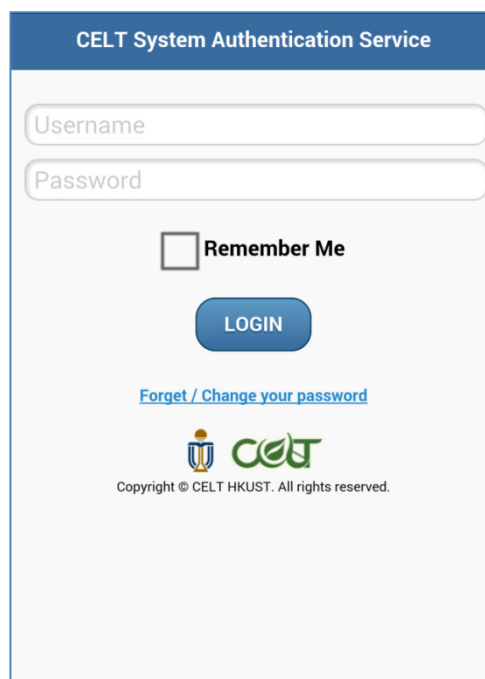

Step 1:

Select **iPRS**.

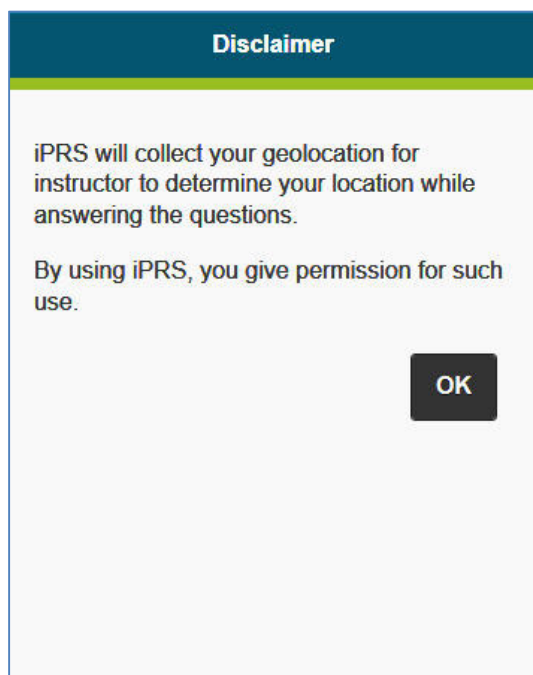

Step 2:

Login with **your ITSC Network Account**.

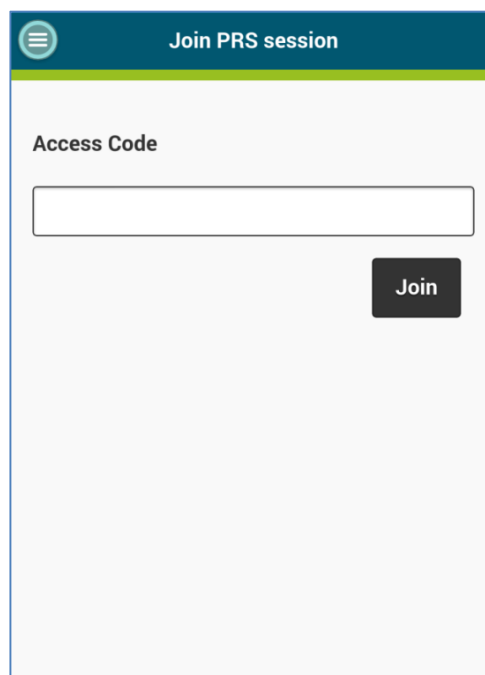

Step 3:

For the first time login, the system will show the disclaimer. It will collect your geographic location as a reference. Click the **OK** button to continue.

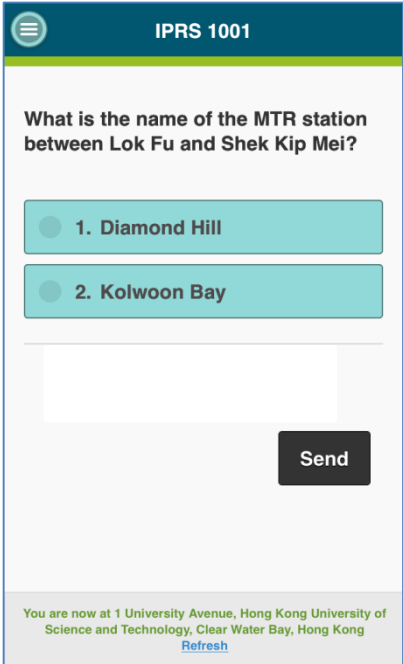

Step 4:

When joining a PRS session, you need to enter the **Access Code** to gain the connection with the session. The Access Code would be different for every PRS session, and it will be provided by the instructor.

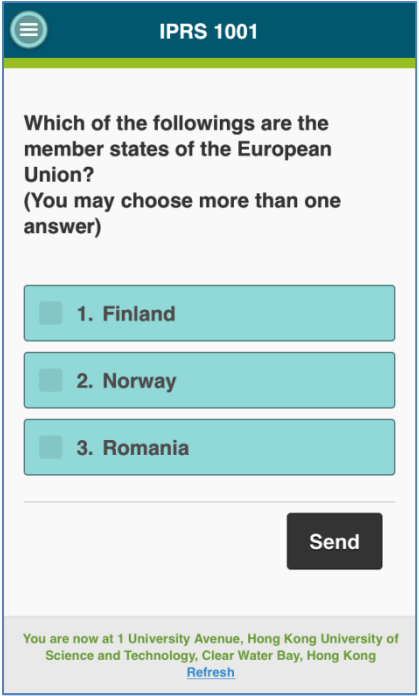

## C. Submit Response

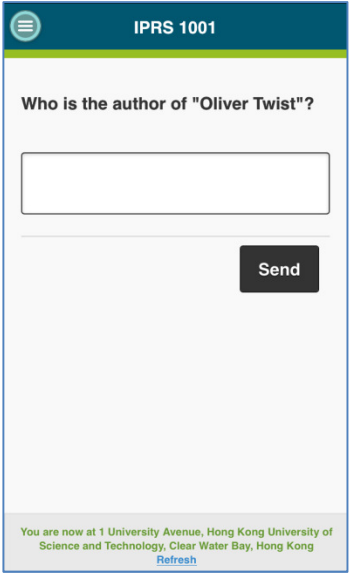

### 1. Submit a Single Answer MC

Ordinary Handset	Mobile App
<p>You can click on the keypad with the option number, and click the <b>OK</b> button.</p> 	<p>You can select an option on the screen, and click the <b>Send</b> button to submit it.</p> 

### 2. Submit a Multiple Answers MC

Ordinary Handset	Mobile App
<p>You can click on the keypad with the options number without space, (e.g. 13), and click the <b>OK</b> button.</p> 	<p>You can select one or more options on the screen, and click the <b>Send</b> button to submit it.</p> 

### 3. Submit an Open-end Question

Ordinary Handset	Mobile App
<p>Ordinary handset does not support answering open-end question.</p>	<p>You can fill in the answer with the space provided on the screen, and click the <b>Send</b> button to submit it. The limit is 1024 characters.</p> 

### 4. Submit answer with Confidence Level

Sometimes instructor will ask you to show your confidence level when answering a question. It means the instructor wants to know how confident you are on answering the question. The Confidence Level can be included in all the three kinds of question.

Ordinary Handset	Mobile App
<p>You can click the HIGH or LOW button to indicate your confidence level. Click the <b>HIGH</b> or <b>LOW</b> button, select the option number, and click the <b>OK</b> button. If you do not specify the confidence level, the system will count it as Medium.</p> 	<p>By default, the option Medium is selected when Confidence Level is included in a question. Select an answer and the confidence level, and click the <b>Send</b> button to submit it.</p>
