A. General Information

1. Handset

The **HKUST iPRS** system supports both the ordinary handset and the smart-phone/tablet.

![Fig. 1 – Ordinary Handset](image1)

![Fig. 2 – Smart Phone](image2)

2. Mobile App

Students should use the **HKUST iLearn** mobile app in their smart device when attending a PRS session in class.

The mobile app is available for both Android and iOS devices.

For Android devices, search **HKUST iLearn** at Play Store:

![HKUST iLearn](image3)

For iOS devices, search **HKUST iLearn** at App Store:

![HKUST iLearn](image4)
**B. Login HKUST iPRS**

When using the mobile app, you are required to login.

<table>
<thead>
<tr>
<th>Step 1: Select iPRS.</th>
<th>Step 2: Login with your ITSC Network Account.</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="Image" alt="HKUST iLearn" /></td>
<td><img src="Image" alt="CELT System Authentication Service" /></td>
</tr>
</tbody>
</table>

**Step 3:** For the first time login, the system will show the disclaimer. It will collect your geographic location as a reference. Click the **OK** button to continue.

**Step 4:** When joining a PRS session, you need to enter the **Access Code** to gain the connection with the session. The Access Code would be different for every PRS session, and it will be provided by the instructor.
C. Submit Response

1. Submit a Single Answer MC

**Ordinary Handset**
You can click on the keypad with the option number, and click the **OK** button.

**Mobile App**
You can select an option on the screen, and click the **Send** button to submit it.

2. Submit a Multiple Answers MC

**Ordinary Handset**
You can click on the keypad with the options number without space, (e.g. 13), and click the **OK** button.

**Mobile App**
You can select one or more options on the screen, and click the **Send** button to submit it.
3. Submit an Open-end Question

**Ordinary Handset**
Ordinary handset does not support answering open-end question.

**Mobile App**
You can fill in the answer with the space provided on the screen, and click the **Send** button to submit it. The limit is 1024 characters.

4. Submit answer with Confidence Level

Sometimes instructor will ask you to show your confidence level when answering a question. It means the instructor wants to know how confident you are on answering the question. The Confidence Level can be included in all the three kinds of question.

**Ordinary Handset**
You can click the **HIGH** or **LOW** button to indicate your confidence level. Click the **HIGH** or **LOW** button, select the option number, and click the **OK** button. If you do not specify the confidence level, the system will count it as **Medium**.

**Mobile App**
By default, the option **Medium** is selected when Confidence Level is included in a question. Select an answer and the confidence level, and click the **Send** button to submit it.
